

The engine room two years ago.

A photo on a crew member's iPhone.

Before the refit. Before the rotation. Before the controller was replaced.

Twelve gigabytes of unstructured vessel history in a personal camera roll.

The most accurate visual record of the vessel.

And the only one the next chief will never see.

The crew left. The phone left with them.

The vessel does not own its images.
The departing crew did.

Photo · linked to equipment.
