

# Saturday morning at the helm desk.

A printout. A highlighter. Three weeks of hours-of-rest forms × 14 crew.

# The chief officer checks each row by hand.

Green ticks. Red question marks. Forty minutes to find what is missing.

# Every PMS shows what was signed.

None of them show who has not.

# By Monday the inspection has arrived.

The gap is whatever the highlighter missed.

The records do not need to be reached. They need to announce themselves.

# Who hasn't signed?
