

The yard invoice *said* stabiliser system serviced.

The hydraulic fluid was never changed.

The invoice was filed. The work was assumed.

The vessel paid. The crew moved on.

Twelve months later the stabiliser failed.

Warranty claim denied — no proof of fluid change.

€20,000 to €100,000 per denied claim.

The maintenance is usually done. The proof is the issue.

An invoice is not a record. A signed
work order is.

The invoice. The work order. The signature.
